

# Wall Sleeve

PANZER WALL SLEEVES

data sheet

## DATA SHEET PANZER Wall Sleeve

**PANZER Wall Sleeve** is a specially designed wall passage for electrical cables in various diameters. It is commonly used in shelter construction characterized by blast resistance and gastight solution. The modularity is the most important advantage of wall sleeve.

The wall sleeve is tested with multiple nominal peak reflected overpressure of **41 bar** at **Fraunhofer Institute, Germany**.

The sleeves provides a corrosion-resistant sealing for wide range of cable gland sizes.

### Data:

They are designed to be suitable for **200-3000 mm** wall thickness. The cover plates are designed for various sets of cable glands but can be customized as well .

The diameter of cable can vary from **6 to 62 mm**.

### APPLICATIONS

Tunneling protect

Petrochemical industry

Power plants

VIP shelters

Civilian shelters

Military shelters

Industrial shelters
