DATA SHEET PANZER Wall Pipes

PANZER Wall Pipe is a specially designed wall passage for water pipes use for potable water and wastewater. It is commonly used in shelter construction characterized by **blast resistance** and **gastight solution**. The modularity is the most important advantage of wall pipes.

The wall pipe is tested with multiple nominal peak reflected overpressure of **41 bar** at Fraunhofer Institute, Germany.

Data:

They are designed to be suitable for **200-3000 mm** wall thickness.
